5Linx planning an expansion

Fast-growing **5Linx Enterprises Inc.** could be in for even more growth.

County Executive Maggie Brooks is scheduled to appear at the Henrietta telecom company this morning to make a "significant jobs and expansion announcement."

5Linx, which sells Voice over Internet Protocol phone service, employs 52 people, up from 40 in 2006. Founder Craig Jera-beck said in October that his company could add 30 jobs in 2007.

That same month, the company received a \$72,000 package of tax incentives from the County of Monroe Industrial Development Agency.
